

TAKE YOUR IMAGINATION ON A JOURNEY

12th August 2025

To Whom it may concern

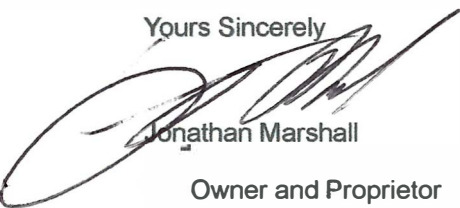

I can't thank Secure Data Recovery Services enough—especially Tom Bellamy—for the incredible work they did recovering over 10 years of priceless data from my external hard drive.

I had nearly given up hope after my drive failed, believing that all my photos, Word documents, Excel files, and other important memories and records were lost forever.

Tom was responsive, professional, and reassuring throughout the entire process. He kept me updated every step of the way and explained everything clearly, making a stressful situation much easier to handle. The level of care, transparency, and expertise they demonstrated was outstanding.

In the end, they were able to recover 97% of my data which I thought I had lost. It was like getting a part of my life back. I'm incredibly grateful and would wholeheartedly recommend Secure Data Recovery to anyone facing data loss. They are true lifesavers.

Yours Sincerely
